“Learn the Signs. Act Early.” Program

Milestone Tracker App Marketing Kit

Overview

[CDC's Milestone Tracker app](#), developed by the "[Learn the Signs. Act Early.](#)" program, provides a fun and easy way for parents and caregivers to track and support their child's early development. The app has been updated to reflect a new and improved interactive design to engage families in tracking their child's development. The app features:

- Interactive milestone checklists for children ages 2 months through 5 years;
- The ability to complete a checklist using corrected age for children born prematurely;
- Photos and videos to help parents and caregivers recognize milestones;
- Tips and activities for supporting early development;
- An easy way to share developmental progress with their healthcare provider and others;
- Appointment and developmental screening reminders;
- And much more!

Partners are encouraged to use the content of this marketing kit to promote the newly updated version of CDC's *Milestone Tracker* app among parents and caregivers, early care and education providers, healthcare providers, and other family service providers.

This marketing kit includes:

News content

- Newsletter blurbs

Print materials

- Flyer
- Tabletop display
- Printable poster

Social media content with accompanying images

- Tweets
- Facebook posts
- Instagram posts

Digital assets

- Web button and banner
- Web language
- Email badge
- PowerPoint slide
- App icon and badge
- App mockups

News Content

News content or “blurbs” are short entries appropriate for newsletters or other communication media. They can be used “as is” or customized to the audience.

They are organized by target audience:

Healthcare Providers

Early Care and
Education Providers

Parents

NEWS CONTENT:

Healthcare Providers

Option #1

Educate parents and caregivers on the importance of supporting and tracking their child's development with CDC's free *Milestone Tracker* app. Newly updated from the Centers for Disease Control and Prevention (CDC), the *Milestone Tracker* app helps parents and caregivers track their child's developmental milestones from ages 2 months through 5 years in English or Spanish, preparing them to share developmental progress with you during well-child visits. The app features interactive milestone checklists, appointment reminders, and tips and activities to support development. Access a printable poster (8.5" x 11") for your clinic, a web button for your website, and more. Encourage families to use this FREE app. Find more information at www.cdc.gov/MilestoneTracker.

Option #2

Healthcare providers now have a useful tool to support developmental surveillance for children ages 2 months through 5 years! CDC's *Milestone Tracker* app helps busy parents and caregivers track their child's milestones using simple checklists on their mobile phone so detailed information on their child's progress is right at their fingertips during checkups. Encourage parents and caregivers to download the app to help them support their child's development—and make their time with you more effective and efficient during developmental surveillance.

Access a printable poster (8.5" x 11") for your clinic, a web button for your website, and much more. Encourage families to use this FREE app. Additional information about the app is located at www.cdc.gov/MilestoneTracker.

The app offers:

- Parent-friendly, interactive developmental milestone checklists adapted from the American Academy of Pediatrics;
- The ability to complete a checklist using corrected age for children born prematurely;
- Photos and videos to help parents recognize milestones;
- Tips and activities for supporting early development and sharing concerns;
- The option to complete a checklist in English or Spanish;
- Appointment and developmental screening reminders; and
- The ability to see a summary of a child's developmental progress in English or Spanish.

Early Care and Education Providers

Option #1

CDC's Milestone Tracker: This newly updated FREE app helps you team with parents and caregivers to track and celebrate development. Better understand each child's skills and abilities, share progress with parents and caregivers, and know when to act early if you have concerns with the *Milestone Tracker* app from the Centers for Disease Control and Prevention (CDC). This fun and easy-to-use app helps parents, educators, and care providers support each individual child's growth with fun and easy activities for every age and stage from 2 months to 5 years. Access a printable poster (8.5" x 11") for your classroom or center, a web button for your website, and more at www.cdc.gov/MilestoneTracker.

Option #2

Newly updated FREE app for teachers, parents, and caregivers: CDC's Milestone Tracker. As an early care and education provider, you know the importance of tracking children's developmental milestones, but did you know there's a new version of the FREE app from the Centers for Disease Control and Prevention (CDC) to help make it easy, fun, and a great way to engage parents and caregivers? CDC's *Milestone Tracker* app helps teachers, parents, and caregivers better understand each child's skills and abilities, track and celebrate developmental milestones, and share developmental progress from ages 2 months through 5 years.

The app offers:

- Parent-friendly, interactive developmental milestone checklists adapted from the American Academy of Pediatrics;
- The ability to complete a checklist using corrected age for children born prematurely;
- Photos and videos to help parents recognize milestones;
- Tips and activities for supporting early development and sharing concerns;
- The option to complete a checklist in English or Spanish;
- Appointment and developmental screening reminders; and
- The ability to see a summary of a child's developmental progress in English or Spanish.

Help parents and caregivers understand, support, and celebrate their child's developmental milestones, and know when to act early if you have concerns. Access a printable poster (8.5" x 11") for your classroom or center, a web button for your website, and more at www.cdc.gov/MilestoneTracker.

Parents

Option #1

Your child's early years are so very important. Tracking how your little one plays, learns, speaks, acts, and moves helps you support their development. CDC's FREE *Milestone Tracker* app has a new look and new features! This app offers fun and easy activities for each age, interactive milestone checklists and custom user profiles, photos and videos that illustrate milestones from ages 2 months through 5 years, appointment reminders, and much more to help your child grow and thrive. Learn more about the *Milestone Tracker* app and get a sneak peek at www.cdc.gov/MilestoneTracker.

Option #2

Enjoy the milestone moments. The first few years go by fast and there are many milestones to celebrate! With the newest version of CDC's FREE *Milestone Tracker* app, it's easier to keep track of how your little one plays, learns, speaks, acts, and moves at every age and find fun and easy activities to support them along the way. Learn more about how this FREE app can help you support your child's growth at www.cdc.gov/MilestoneTracker.

Option #3

Make the most of check-ups for your little one. The early years are important. The new version of CDC's FREE *Milestone Tracker* app helps busy parents remember the details of their child's development to share at their next appointment. Track your child's milestones using simple checklists on your mobile phone so the information you need is right at your fingertips when you need it. You know your child best. Talk with the doctor about how your child is developing, share their milestone summary and any concerns you might have. Learn more at www.cdc.gov/MilestoneTracker.

Option #4

Is your baby's or young child's development on track for his or her age? Young children grow so fast it can be hard to know what to expect. With the newly updated FREE *Milestone Tracker* app from the Centers for Disease Control and Prevention (CDC), you can learn how children play, learn, speak, act, and move as they grow and how you can support your child's development. Learn more at www.cdc.gov/MilestoneTracker.

CDC's FREE app for parents and care providers offers:

- Interactive milestone checklists in English and Spanish for children ages 2 months through 5 years;
- The ability to adjust the checklist age if your child was born prematurely;
- Photos and videos that illustrate each milestone and make tracking them for your child easy and fun;
- Your child's milestone summary to share with others, like your child's health care provider;
- Tips and activities that can help your child's development;
- Information on what to do if you have a concern about your child's development;
- Reminders for appointments and developmental screening; and
- New milestone countdowns and custom user profiles

Learn more and get a sneak peek at www.cdc.gov/MilestoneTracker.

Print Materials

The following materials can be printed for distribution. The flyer can be printed as a half-sheet, printed “2-up” for distribution. The poster can be printed on a single 8.5” by 11” paper (affixed to wall or a foam core tabletop display). The tabletop display can be printed on a single 11” by 17” inch paper and affixed to the wall or a foam core tabletop display.

Please email ActEarly@cdc.gov for print-ready files.
