

About The Warren Center: The Warren Center is a nonprofit organization committed to empowering children with developmental delays and disabilities. Since 1968, the center has served more than 35,000 children and their families across Dallas. Today, The Warren Center supports over 1,200 children each week across 48 ZIP codes, providing a wide range of services including speech, occupational, and physical therapy, autism assessments, and family education and support. Through its Early Childhood Intervention (ECI) program, the center serves children from birth to age 3, while clinic-based therapy is available for children ages 3 to 8. At The Warren Center, we help children reach their full potential—every step of the way.
